

# Transition band project – Year 8 – Summer Term

You will be learning how to play three songs on an instrument of your choice which will be played in whole class performances. You will then practise a song of your choice with a small group resulting in a final summer performance.

## Becoming a master of your instrument

You can choose to sing, or play keyboard, guitar, bass, or drums. It is recommended that you stick with this instrument for the duration of this project so that you can really master your parts.
