How will having a bank account help me?

When you grow up, what do you expect to be able to afford?  
 If you have a job, how will you be paid your salary?  
 Where will you live?  
 Where will you keep your money while you're saving?  
 Will you save for a holiday or a car?

- Many shops allow you to pay using contactless payments. This means that you don't need to remember your pin, you can simply tap your card on a reader and your payment will be taken. You can use your card in this way for payments up to £45.
- You can also pay using a digital wallet, like Apple Pay or Google Pay. This links your phone to your bank card and allows you to make online and contactless payments of any amount using your phone instead of your card.
